Join by **June 30** to get 18 months for the price of 12.

### Access to UIA Events

Exclusive discounted access to additional UIA experiences.

## Introducing the University Innovation Lab

Want to make student-centered change on your campus, but not sure where to start? Student success leaders from campuses across the country have shared that improving retention, boosting the success of underserved students, and increasing graduation rates are among their biggest challenges. Are they yours, too? Does it feel like you're going at this work alone?

### The University Innovation Alliance can help.

The University Innovation Lab is the UIA network's online hub and practitioner community that helps student success leaders and campus teams advance innovative initiatives to improve outcomes for all students.

The Lab is now open to higher ed institutions outside the Alliance. Members join because they find resources and community that help them **plan effectively, implement at scale, build staff capacity, and get priority access to other UIA experiences.**
